

KURT VONN ALDE

Software Engineer | AI Solutions | Full-Stack Development | Microsoft Azure

Cebu City, Philippines | kurtvonn98@gmail.com | +63 909 999 91320

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience delivering full-stack applications, AI-powered solutions, cloud-based services, data analytics, automation, and low-code applications. Hands-on experience with React, TypeScript, .NET, Node.js, Python, Microsoft Azure, SQL, Power BI, Power Automate, and Mendix. Experienced in translating stakeholder requirements into technical solutions and supporting applications through development, deployment, and production delivery.

TECHNICAL SKILLS

Programming: C#, JavaScript, TypeScript, Python, SQL, C++, Typescript

Frontend: React, HTML, Tailwind CSS

Backend: .NET, [Node.js](#), Python

AI & Intelligent Applications: AI-powered applications, AI integration, machine learning models, AI agents, automated workflows, RAG, Generative AI

Cloud & Azure: Microsoft Azure, Azure App Services, Azure Functions, Azure Cosmos DB, Azure Cognitive Services, Azure Storage, APIs, Azure Foundry/OpenAI

Data & Analytics: Power BI, Databricks SQL, Oracle SQL, data modeling, data visualization

Automation & Low-Code: Microsoft Power Platform, Power Automate, Mendix

Development Tools: GitHub Copilot Business, VSCode, Bruno, Postman, Swagger

PROFESSIONAL EXPERIENCE

Custom Software Engineer | Accenture

March 2025 – Present

- Engineered and deployed AI-powered, client-facing web applications using React for frontend development and Node.js, .NET, and Python for backend services.
- Integrated AI and machine learning capabilities into web applications to support automation, recommendations, and intelligent workflows, including duplication-detection agents.
- Configured and optimized Microsoft Azure resources including App Services, Functions, Cosmos DB, databases, storage, APIs, and Cognitive Services to support cloud-native solutions.
- Delivered applications end-to-end, covering cloud resource setup, application development, AI integration, deployment, and client integration.
- Partnered with product teams and stakeholders to translate business requirements into practical technical solutions.
- Developed and maintained interactive Power BI dashboards and reports to support data-driven decision-making across business functions.
- Used Oracle SQL and Databricks SQL to query, transform, and model data for reporting and analytics requirements.
- Collaborated with stakeholders to define KPIs, optimize data models and queries, and improve report performance and usability.
- Performed ad-hoc analysis and data visualization to support management initiatives.
- Adopted AI-assisted development practices using GitHub Copilot Business to support software development workflows.

Software Developer – Certified Intermediate Mendix Developer | Alliance Software Inc., Cebu City, Cebu

March 2023 – March 2025

- Developed enterprise applications using the Mendix low-code platform, contributing to improved user experience and application efficiency.
- Translated user and business requirements into application functionality and participated in continuous improvement based on user feedback.
- Troubleshoot and optimized existing applications to improve functionality, reliability, and performance.
- Collaborated with cross-functional teams to support successful project delivery and participated in knowledge-sharing activities.

- Earned the Certified Intermediate Mendix Developer certification, demonstrating proficiency in Mendix application development.

Data Analyst Intern | Lexmark Research & Development, Cebu City, Cebu

September 2022 – December 2022

- Developed automated data and business processes using Power Automate and Python.
- Analyzed use cases and collaborated with teams to identify automation opportunities that improved data accuracy and workflow efficiency.
- Supported documentation and automation strategy development to improve process clarity and productivity.

EDUCATION

Bachelor of Science in Information Technology | La Salle University, Ozamiz City

August 2023 | GPA: 1.75

- Relevant Project: Trafex – Travel Information Extraction System, an automated system designed to streamline the collection and management of travel information.

CERTIFICATION

- Certified Intermediate Mendix Developer

ADDITIONAL INTERESTS

Continuous improvement and workflow enhancement; low-code development and automation; web technologies and responsive design; professional development.
